Experience Extraordinary Healing and Transformation in Peru with Native Peruvian Healer Hachumak. Each trip includes three Plant Medicine (Ayahuasca) ceremonies and private sessions with Hachumak. October 2—15, 2024.

Hachumak (Jorge) is dedicated to helping individuals clear and heal emotional and spiritual pain leading to improved physical health and wellbeing. The core of his work is focused on deep healing on all levels: physical, emotional, mental, and spiritual. Unlike the healing at commercial retreats so prevalent today, Hachumak emphasizes a traditional, authentic, and deeply personal experience for participants while drawing upon the sacred energies of the Peruvian land, its flora and fauna, and indigenous historical sites. Through the use of plant medicines and healing sessions, Hachumak will assist and guide participants in personal transformation unique to the needs of each participant. He is the author of *Journeying Through the Invisible*, *The Craft of Healing With and Beyond Sacred Plants as told by a Peruvian Medicine Man*.

At the Amazonian retreat center (Hachumak owns 60 acres of land along the Amazon River), you will experience the jungle/rainforest, visit local villages and experience their culture, see the pink dolphins in the Amazon River as well as participate in other activities on the land. Your trip includes simple yet comfortable lodging and delicious local food prepared by indigenous people who appreciate and support the traditional healing work you are undertaking.
